THE ISPRM 2012 INTERIM BOARD OF GOVERNORS MEETING – CALL FOR TENDER Werner Van Cleemputte

The ISPRM holds its Board of Governors Meetings every second year (odd years) during its ISPRM World Congresses.

During interim years, the ISPRM organizes its Board of Governors Meetings in conjunction with an exciting congress. In the past, the Interim Board Meetings were mainly supported by the Congresses in Europe as shown below:

2000	Athens, Greece	Mediterranean Congress
2002	Catania, Italy	Mediterranean Congress
2004	Antalya, Turkey	Mediterranean Congress
2006	Algarve, Portugal	Mediterranean Congress
2008	Brugge, Belgium	European Congress
2010	Limassol, Cyprus	Mediterranean Congress

We kindly announce that the 2012 ISPRM Board of Governors is now open to bidding and we would like to encourage national societies to submit their bids to host the ISPRM Board of Governors meeting in conjunction with their congresses. The Central Office of ISPRM would like to call for submission of proposals to host the Interim Board Meeting 2012. The interested party should

1. Follow the rules and regulation listed in the document for hosting Interim ISPRM Board meeting - visit <http://www.isprm.org/?CategoryID=231&ArticleID=130>
2. An application to hold the 2012 ISPRM Interim Board Meeting can be made by any active National Society, member of the ISPRM and **in good standing for at least two successive years** or any individual active ISPRM member **in good standing** fully backed by his or her national society.
3. Submit your proposal on or before **August 29, 2010** to the Central Office at Werner@medicongress.com. Late submission will not be entertained. PowerPoint presentations and/or video clips (not more than 5 minutes) could also be submitted to be uploaded to the website for the Board members to review.

ESPRM SUPPORTS THE RESEARCH: VENICE FRONT OFFICE DESK

Tommaso Sciarra, MD, PRM Specialist, Tor Vergata University, Rome- Italy

The European Society of Physical and Rehabilitation Medicine (ESPRM), led by Prof. Alessandro Giustini, started a new initiative: "ESPRM SUPPORTS THE RESEARCH".

Aim of this service is to improve the Research in PRM, by means of the relationship between European researchers, facilitating useful contacts and promoting discussion about contents for new research projects.

Very often it is difficult to collect similar experiences and aims at International level to have a strong and competent panel to define and realize a Project (and also to try to find sufficient financial supports).

To this purpose, "VENICE FRONT OFFICE DESK" will be set up all over the next 17th ESPRM Congress in Venice from 23 to 27 of May, covering each topic in Rehabilitation.

A Front Office Team composed of specialists (collectors) will be at your disposal, to collect all proposals and create a database for each topic. Research ideas/Projects may be submitted by single Colleagues, Scientific Institutions, Universities and Companies operating in the Rehabilitation area.

Finally, at the end of the Congress the Front Office Team Collector is expected to summarize the information obtained in order to diffuse it and facilitate the trials in progress, and to facilitate the starting of the new ones.

The ESPRM Web-Site (www.esprm.net) will be the "platform" for exchanging information and keeping in touch and carrying out all the various activities.

The most interesting projects carried out by the Society Members could be awarded by ESPRM quality mark and they will be published on the Web-Site.

All Scientists are kindly invited to participate and prepare their project proposals before the Congress and submit to this e-mail: sciarratommaso@hotmail.com

THE GLOBAL COMMUNITY OF PRACTICE FOR REHABILITATION (GPOPR)

Jim Gosney MD MPH, AAPM&R Haiti Task Force, IRF Disaster Rehab Workgroup, ISPRM; gosneyjr@hotmail.com

The Global Community of Practice for Rehabilitation is being led by the Chief Health Professions Officer (CHPO) for Scotland on behalf of the UK/Ireland and International CHPO group. The secretariat is being provided by the National Centre for Prosthetists and Orthotists at the University of Strathclyde, Glasgow, Scotland. The community launched in June 2009, in advance of the Global Forum of Health Professionals, providing valuable input into this event which was held by the World Health Organisation. The focus of the discussion was "Community Based Rehabilitation - development and challenges" and featured a number of patient case studies, illustrating the real issues and challenges of delivering rehabilitation services in different countries. This CoP is open to all health professionals with an interest in Rehabilitation - Clinical Leaders, Researchers, Expert Practitioners, Policy Makers, Support Workers and Key Stakeholders

Newly launched, this promising online resource presently has a CBR focus and highlights other aspects of rehabilitation as described in its most recent bulletin [excerpted below, att]). Expect significant site activity w/ (ISPO) World Congress in Leipzig, Germany (www.ispo-2010-leipzig.de) and consider tuning in to the webcasts on the 11th/12th May - featuring 'Provision of P & O services /CBR in low and middle income countries' among other relevant topics.

Please consider joining this online rehabilitation community and pass to potentially interested colleagues! - <http://my.ibpinitiative.org/public/rehabilitation>. If you have additional questions or would like further information, please contact Susan Shaw MBA MBAPO, GCoPR Project Officer; shaw-susan@btconnect.com.

GCoPR Bulletin - Issue 3 - April 2010

Following the success of our discussion week on Community Based Rehabilitation in June 2009, a further 6 separate discussions are planned for 2010 and will be held over the course of a 6-month period. Each discussion topic will be hosted by a WHO region and whilst maintaining a CBR focus, the topics covered will concentrate on a specific aspect of rehabilitation. As before, the discussions are intended to support inter-professional networking and facilitate the sharing of best practice across international communities and professions. Provisional schedule is as follow:

<u>Month</u>	<u>Host Region</u>	<u>Topic</u>
May	Europe	Long Term Conditions
May/June	Western Pacific	Healthy Aging
July	Eastern Med	Post Natural Disaster
Aug/Sept	Americas	Workforce planning
October	SE Asia	Vocational Rehab
October	Africa	Post Trauma/Conflict

Details on the countries within each WHO region can be found at: <http://www.who.int/about/regions/en/>

Each discussion topic will be launched via a number of WebCasts from international rehabilitation conferences around the world. All that is needed to access these WebCasts, through the GCoPR website, is a laptop/PC and a broadband connection to the internet.

The first WebCasts will take place on the 11th/12th May and will be from the International Society for Prosthetics and Orthotics (ISPO) World Congress in Leipzig, Germany (www.ispo-2010-leipzig.de) and will include:-

- Community Based Rehabilitation and P & O Service Provision
- Convention on the Rights of Persons with
- Disabilities and Mobility Devices
- Benefits of Good Seating & Peer Training in Less Resourced Settings
- Provision of P & O services /CBR in low and middle income countries
- International Classification of Function, Disability and Health (ICF)

As outlined above, a further 5 discussion topics will be presented over the course of the next few months, culminating at the Community Based Rehabilitation conference in Africa in October 2010, where the WHO will also be launching their CBR guidelines.
