## Invitation Letter of ISPRMDC Summit

Dear Colleagues :

It's my great honor to invite you for attending International Society of Physical and Rehabilitation Medicine for Developing Countries Summit 2018(ISPRMDC2018), which is to be held during Nov.30th to Dec.3rd, 2018 in Nanjing, China.

The initial vision of ISPRMDC is to bring the best content of the ISPRM international summit to not only China but other developing areas. The colleagues in developing countries who are unable to attend the ISPRM annual congress will obtain the latest frontier information in ISPRMDC summit.

We will invite well-known experts of ISPRM to share their cutting edge researches on neurological rehabilitation, orthopedic rehabilitation, pediatric rehabilitation and cardiovascular rehabilitation. I believe ISPRMDC2018 will definitely promote international academic exchanges and cooperation in rehabilitation medicine field.

The name Nanjing, which means "South Capital", is reflective of the importance of Nanjing as the capital of the Six Dynasties in China's history. This city, with more than 6000 years of civilization, is an important birthplace of China. It has a rich cultural heritage and plentiful historical remains. Fortunately, Nanjing is my hometown. I hope you will support ISPRMDC2018 wholeheartedly. I am looking forward to meeting you in my beautiful hometown.

I believe you can get a full harvest from the summit and will be very impressed by the city's well-preserved traditional architecture and historical sights.

Jianan LI Chair of ISPRM for Developing Countries Summit

### **【Brief Introduction】**

*The International Society of Physical Medicine and Rehabilitation Medicine (ISPRM) Summit for Developing Countries*, with high reputation worldwide, is the only authorized annual rehabilitation academic congress held in China by ISPRM. The summit follows the ISPRM concept of "ultimately improving function and life quality of patients" and spreads the essence of ISPRM to a broader area. The congress enhances the sharing of rehabilitation practices in developing countries, builds up academic cooperation among various countries, establishes an international platform for young and middle-aged scholars in developing countries, realizes clinical data sharing, accelerates international scientific research collaboration, and jointly promotes medical rehabilitation in developing countries.

### **【Featured Event】**

- **The Best of ISPRM** : A selection of hot topics and news in physical medicine and rehabilitation medicine will be interpreted by **TOP** experts from ISPRM academic committee.
