What are the ISPRM Forums and Groups?

The "**Groups**" serve to find a space with like-minded PRM professionals and start conversations. Each "Group" can have a "**Forum**" which will allow for the creation of various topics in a dynamic and organized manner.

We also use the platform for our Committees, Task Forces and **Special Interest Groups** (SIGs). They can brainstorm and keep track of the communication among members. **SIGs** are public groups, so you don't need invitation to join! Just subscribe to their forum.

- After you log in to the [RESERVED AREA](#) ([read guide](#)) you will be able to access the Forums & Groups sections under "**OUR NETWORKS**".
- Click to search a forum/ group by name or key word
- Now you can join the discussion (more details in the next page)

The screenshot shows the ISPRM website interface. At the top right, there is a "Log In" button. Below it, a navigation bar includes links for "MEET", "LEARN", "READ", "JOIN", "COLLABORATE", "OUR NETWORKS", "DONATE/SUPPORT", and "RESERVED AREA". A search icon is also present. The "OUR NETWORKS" dropdown menu is open, showing options for "Forums", "Groups", "Search Members", "PRM Opportunities", and "User Guides". The main content area is titled "Forums" and displays a message: "You are unauthorized to view this page. Only ISPRM active Members can access this area. Read more or joins us today:". Below this message is a "Click Here" link. At the bottom, there are input fields for "Username" and "Password".

How can I join a Group or Forum?

There are 3 types of groups:

1. **Public** – anyone can request to join
2. **Private** – must be invited or request to join
3. **Hidden** – must be invited, not visible otherwise
